

When You Get Home.....

Who

Ask your children **who** they talk to online – remember to ask if they have friends they only know online, people they play games with online but don't know and if they talk to anyone that upsets or worries them

Where

Get them to tell you **where** they go online – have they signed up for any commercial websites, have they been to any sites that have upset them are they sent links to sites that they then visit?

What

Find out **what** they do online – do they share pictures of themselves, are they always kind to other people online, do they 'hack' their friends accounts or post comments on YouTube
