

# Possible careers with Engineering

## Mechanical

Agricultural Engineer  
Automotive Engineer  
Automotive Mechanic  
Land based Engineer  
Medical Engineer  
Plant Mechanic  
Railway Engineer  
Train Maintenance Technician  
Welder

## Electrical

Auto Electrician  
Distribution Worker  
Electrician  
Lighting Technician  
Sound Technician

## Electronic

Assembly Worker  
Field Services Engineer  
Medical Technical Officer  
Security Systems Installer  
Software Engineer  
Special Effects Technician  
Telecommunications Technician  
Weapons Engineering Artificer

## Building Services

Air Conditioning Engineer  
Construction Engineer  
Domestic Appliance Technician  
Gas Installation Engineer  
Gas Service Engineer  
Heating & Ventilating Fitter  
Refrigeration Engineer  
Thermal Insulation Engineer  
Waste Energy Engineer

There are jobs  
for all abilities:  
operative, craft,  
technician and  
professional

You need to be  
interested in  
how things  
work, how to  
solve  
problems, be  
keen to follow  
developments  
and be  
adaptable

## Aerospace

Aerospace Engineer  
Avionics Technician  
Mechanical Technician

## Civil and Structural

Civil Engineer  
Civil Engineering Technician  
Structural Engineer

## Manufacturing

CNC Machinist  
Control/Instrument Engineer  
Design Engineer  
Maintenance Fitter  
Manufacturing Systems Engineer  
Production Engineer  
Textile Technologist

## Marine

Marine Engineer  
Naval Architect  
Subsea Pipeline Engineer

## Medical

Biomedical Engineer  
Dental Technician  
Geneticist  
Medical Field Service Engineer  
Medical Physicist  
Optical Technician  
Prosthetist

## Petroleum / Renewables

Chemical Engineer  
Chemical Engineering Technician  
Energy Engineer  
Nuclear Engineer
