

What is Doddle Parent?

Doddle Parent has been created for the people who care most about their children's education – you!

A brand new platform, Doddle Parent allows you to see your child's progress in different subjects. Subjects are broken down into individual skills, and your child's teachers will give him or her a rating based on their understanding of each skill:

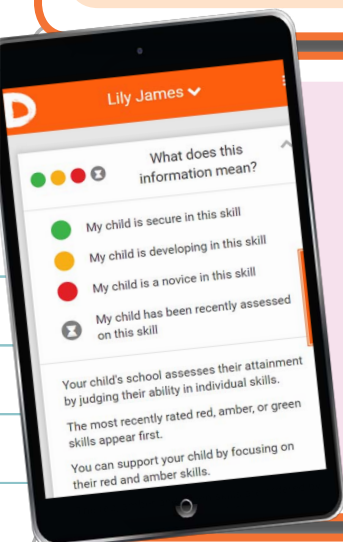

Green: My child is secure in this skill

Amber: My child is developing in this skill

Red: My child is a novice in this skill

As a parent or carer, you can log in on any internet device (including mobiles and tablets) to see all of these ratings in one place.

With Doddle Parent, you can:

- See exactly how well your son or daughter is grasping skills, according to their teachers
- View their skills in the order they were most recently rated, to get an idea of their progress
- Understand the specific areas in which they might need a helping hand

Each parent can add their children to their own account.

How do I log in?

It's easy! Your school will provide you with a 16-digit number – your parent 'key' – and you'll need an email address to register your account. Once registered, simply log in with your key on any device connected to the internet (including mobiles and tablets!) to link your child to your account and start viewing their progress!

To access Doddle Parent, visit www.doddlelearn.co.uk, click on Login, and click on the Doddle Parent button.

Having trouble?

If you need a reminder of your parent key, or you have questions about your child's curriculum or progress, please **contact your school**.
